

POTABLE WATER PRESSURE

OVERVIEW:

- Leading manufacturer of marine watermakers for over 80 years
- Ideal for providing instantaneous and steady water pressure at point of use
- Provides water during off-peak demand periods
- Reduces continuous, or frequent pump operation, thereby extending pump life
- Compact footprint
- Automated operation
- Hazardous area classification options
- Spare parts also available
- Offer custom system design
- Supported by MECO 24-hour customer service
- Backed by warranty

PRODUCT HIGHLIGHTS:

Standard Features

- Hydropneumatic tank designed to ASME specification
- Dual vertically mounted centrifugal pumps
- Heavy duty butyl replaceable rubber bladder
- Compact skid mounted configuration

Equipment Details

- PVC conduit
- NEMA 4 or 4X integrated control and instrument panel
- TEFC motors
- Stainless steel multi-stage centrifugal pumps
- Stainless steel piping with flanged terminal points
- Horizontal tank configurations available

Model	CAPACITY in GPM [m3/hr]
PWPS 45	45 [10]
PWPS 90	90 [20]
PWPS 150	150 [34]
PWPS 260	260 [59]
PWPS 300	300 [68]
PWPS 405	405 [92]
