OVERVIEW:
- Available individually or as part of a total water treatment solution
- Designed for bacteria, virus and endotoxin removal
- Modular system designed for ease of expansion
- Lower maintenance costs when compared to reverse osmosis systems
- Optional complete validation package with IQ/OQ protocol execution
- Supported by MECO 24-hour customer service
- Backed by warranty

PRODUCT HIGHLIGHTS:

**Standard Features**
- Unit is completely piped, wired, and assembled on skid(s) at the factory
  - Reduces installation costs and startup time
- Automatic backwash
- Designed for up to 97% feedwater recovery
- Conservative flux rates
- Chlorine tolerant membranes
  - Reduces bio-growth
- Chemically cleaned via CIP (Clean-In-Place)
- PLC based controls

**Equipment Details**
- Premium valves and instruments
- Minimum deadlegs
- 304 Stainless Steel Skid
- Polypropylene or stainless steel air lines
- Stainless steel hardware
